

STRATEGIC GROWTH - SECOND QUARTER 2023

FIRM: Mar Vista’s mission is to create value for our investors by generating risk-adjusted returns that exceed the opportunity cost of investing in a passive index. This requires a conviction to be different in how we think, behave and invest.

PHILOSOPHY: We seek to invest in high quality growth businesses trading at discounts to fair value. Specifically, we look for competitively advantaged companies with abundant opportunities to grow and reinvest capital at high rates of return. We also seek management teams with a proven ability to allocate capital in ways that maximize shareholder value.

STRATEGY: The Strategic Growth strategy seeks long-term capital appreciation by investing in a portfolio of 30-50 durable franchises that can grow excess returns on capital well into the future yet trade at attractive margins of safety. We believe the diversification found in a portfolio of 30-50 stocks provides ample opportunity for differentiated outcomes, while dampening the volatility inherent in more concentrated products.

STRATEGIC GROWTH - SECOND QUARTER 2023
Quarter Commentary:

The U.S. stock market continued its march higher in the second quarter, as stronger-than-expected economic growth and excitement around the long-term potential for artificial intelligence ("AI") drove market sentiment. Moderating inflation provided cover for the Federal Reserve to pause its aggressive interest rate tightening cycle, benefiting equity valuations. The performance of the S&P 500® Index is now the most concentrated it has been since the 1970s. Seven of the biggest constituents representing nearly 30% of the S&P 500® Index have collectively gained 61% on a capitalization weighted basis. This disruptive technology cohort has accounted for 10.5% of the S&P 500® Index's 16.9% year-to-date performance.

Mar Vista's Strategic Growth portfolio appreciated +9.7%, net of fees, in the second quarter of 2023, increasing our portfolio gains to +15.3% net of fees year to date. The strategy's second quarter returns outpaced the S&P 500® Index (+8.7%), but fell short compared to the Russell 1000® Growth Index (+12.8%). The Strategic Growth portfolio benefited from an impressive ascent of equity prices across various sectors in the first half. Conversely, underperformance in the technology (-223bps) and communication services (-62bps) sectors were the main factors that dragged down the portfolio's relative performance for the quarter.

Momentum is always a driver of short-term market performance as investors are notoriously fearful of missing out, even while simultaneously worrying about frothy valuations. Over time, we expect our portfolio's returns to reflect two factors: the compounding nature of our businesses and the discount we are paying relative to fair value. Mar Vista does not claim expertise in predicting market direction, but we believe that a patient, high-conviction portfolio of competitively advantaged businesses with appropriately discounted stock prices will generate excess risk-adjusted returns. As we navigate this rapidly evolving investment environment, we will remain diligent and patient in deploying capital within our wide-moat universe.

General Disclosures

Investors in Mar Vista's Strategic Growth strategy acknowledge and agree that (I) any information provided by the Firm is not a recommendation to invest in the strategy and that the Firm is not undertaking to provide any investment advice to the investor (impartial or otherwise), or to give advice to the investor in a fiduciary capacity in connection with an investment in the strategy and, accordingly, no part of any compensation received by the Firm is for the provision of investment advice to the investor and (II) Mar Vista has a financial interest in the investor's investment in the strategy on account of the fees and other compensation the Firm expects to receive from the client. Mar Vista Investment Partners, LLC, a Delaware limited liability company, offers investment advisory services to individuals, pension and profit-sharing plans, trusts, estates, corporations, as well as other institutional clients. For purposes of compliance with GIPS®, Mar Vista has defined itself to include bundled/wrap fee accounts in the Firm's assets. Prior to January 1, 2018, Mar Vista defined itself to not include bundled/wrap fee accounts in the Firm's assets. Mar Vista maintains a complete list and description of Firm composites, which is available upon request.

On 7/12/07, Silas Myers and Brian Massey formed Mar Vista to manage various large-cap equity strategies. On 12/1/07, all of the assets under their management at Roxbury transitioned to Mar Vista through a sub-advisory arrangement. Information provided for the period from January 2004 through November 2007 represents the performance of portfolios managed by Mr. Myers and Mr. Massey while employed by Roxbury. On 1/20/15, Mar Vista finalized an agreement whereby the preferred share class that was owned by Roxbury was extinguished and Mar Vista is majority employee owned. All assets under management are managed by Mar Vista. Mar Vista claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Benchmark returns are not covered by the report of independent verifiers. For the entire period presented, Mr. Myers and Mr. Massey have been substantially responsible for the all the investment decisions of the large-cap equity strategies. Performance prior to 12/01/07 meets GIPS® portability requirements. ACA served as the verifier, conducted a verification and examined the composite's performance history that was ported over to Mar Vista prior to 12/01/07.

The Strategic Growth Composite was created 12/01/07, with an inception date of 12/31/03. All returns are based in U.S. dollars and are computed using a time-weighted total rate of return. The composite is defined to include all fully discretionary portfolios with no minimum or maximum account value, managed in accordance with Mar Vista's Strategic Growth strategy, and that paid for execution on a transaction basis. Prior to 1/01/06, the composite was defined to include only taxable portfolios with no minimum or maximum value. The results in the column marked net of fees for the periods 8/01/08 through the present, include a standard management fee applied to any non-fee-paying portfolio for performance calculation purposes. The primary benchmark is the Russell 1000® Growth Index, defined as an unmanaged, capitalization weighted index of those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth values. The secondary benchmark is the S&P 500® Index, defined as an unmanaged, capitalization weighted index of the common stocks of 500 major U.S. corporations. Index returns include dividends and/or interest income and, unlike composite returns, do not reflect fees or expenses. In addition, unlike the composite, which periodically maintains a significant cash position, the Russell 1000® Growth Index and the S&P 500® Index are fully invested. Investors cannot directly invest in an index. The dispersion in gross-of-fee composite returns shown herein was measured using an asset-weighted standard deviation formula.

Performance results presented reflect the reinvestment of dividends and other earnings. Gross performance is net of all transaction costs, and net performance is net of any transaction costs, applicable performance-based fees and actual management fees, but before any custodial fees. All returns are calculated net of withholding taxes on dividends and interest. Actual results may differ from composite results depending upon the size of the portfolio, investment objectives and restrictions, the amount of transaction and related costs, the inception date of the portfolio and other factors. Policies for valuing portfolios, calculating performance, and preparing GIPS® composite reports are available upon request.

The Firm's Strategic Growth fee schedule is as follows: First \$25 million – 0.75%; Next \$25 million - 0.60%; Next \$50 million – 0.50%; Over \$100 million - Negotiable. Special circumstances may cause fees to vary from this schedule and Mar Vista reserves the right to negotiate fees with clients. Fees are payable quarterly in arrears or advance based on 1/4th of the annual rate.
