

**GLOBAL - FIRST QUARTER 2022**

**FIRM:** Mar Vista's purpose is to create value for our investors by generating unique risk-adjusted returns that exceed the opportunity cost of investing in a passive index. Our mission requires a conviction to be different in how we think, behave and invest.

**PHILOSOPHY:** We invest in high quality growth businesses trading at discounts to fair value. Specifically, we look for competitively advantaged companies with abundant opportunities to grow and reinvest capital at high rates of return. We also seek management teams with a proven ability to allocate capital in ways that maximize shareholder value.

**STRATEGY:** Mar Vista's Global strategy seeks long-term capital appreciation by investing in a portfolio of 20-30 businesses. Applying the same investment philosophy and process as our domestic strategies, we invest in global companies that possess attractive per share intrinsic value growth, durable competitive advantages, pricing power, copious amounts of free cash flow, opportunities to reinvest excess capital in high return on capital projects, and the ability to prosper in a variety of market environments.

SINCE INCEPTION SUMMARY (1Q12 - 1Q22)	Beta	Standard Deviation (%)	Down Market Capture (%)	Up Market Capture (%)	Tracking Error (%)	Alpha (%)

Since Inception	12.0	11.3	11.8	1.3	11.0	2.2

**Quarter Commentary:**

For the first quarter of 2022, Mar Vista's Global Equity strategy declined -8.0%, net of fees, trailing the MSCI World® Index (net) by -2.8% and the MSCI All Country World® Index (net) by -2.6%. Stock selection in financials and industrials and an underweight in consumer discretionary helped relative performance while investments in information technology, communication services and no exposure to energy detracted from short-term results.

For the first time since the start of the pandemic, global markets failed to climb a growing "wall of worry" during the quarter. A generally favorable economic environment and robust post-COVID reopening were not enough to usurp the confluence of inflationary, monetary and geopolitical headwinds. The U.S. and European economies appear, at least temporarily, to have locked into a wage-price spiral with companies forced to raise prices in response to higher wages and escalating input costs, magnified by supply chain pressures. In response, central banks have tightened the monetary reins after years of unprecedentedly loose monetary policy. The Ukraine-Russia conflict has only added fuel to the inflationary fire as it disrupts the global commodity chain, particularly in Europe.

Mar Vista claims no special skill in predicting the market's direction but, in the fullness of time, we believe a patient, high-conviction portfolio comprised of competitively advantaged serial compounders with stock prices that represent an appropriate margin of safety, or discount to fair value, should generate excess risk-adjusted returns. In an investment environment with rapidly evolving expectations for interest rates, inflation and economic growth, we will remain diligent, conservative and patient as we deploy capital within our wide-moat universe.

## GLOBAL - FIRST QUARTER 2022

### General Disclosures

Investors in Mar Vista's Global strategy acknowledge and agree that (I) any information provided by the Firm is not a recommendation to invest in the strategy and that the Firm is not undertaking to provide any investment advice to the investor (impartial or otherwise), or to give advice to the investor in a fiduciary capacity in connection with an investment in the strategy and, accordingly, no part of any compensation received by the Firm is for the provision of investment advice to the investor and (II) Mar Vista has a financial interest in the investor's investment in the strategy on account of the fees and other compensation the Firm expects to receive from the client. Mar Vista Investment Partners, LLC, a Delaware limited liability company, offers investment advisory services to individuals, pension and profit-sharing plans, trusts, estates, corporations, as well as other institutional clients. For purposes of compliance with GIPS®, Mar Vista has defined itself to include bundled/wrap fee accounts in the Firm's assets. Prior to January 1, 2018, Mar Vista defined itself to not include bundled/wrap fee accounts in the Firm's assets. Mar Vista maintains a complete list and description of Firm composites, which is available upon request. Mar Vista Investment Partners, LLC, a Delaware limited liability company, offers investment advisory services to individuals, pension and profit-sharing plans, trusts, estates, corporations, as well as other institutional clients. On 7/12/07, Silas Myers and Brian Massey formed Mar Vista. On 12/1/07, all of the assets under their management at Roxbury transitioned to Mar Vista through a sub-advisory arrangement. On 1/20/15, Mar Vista finalized an agreement whereby the preferred share class that was owned by Roxbury was extinguished and Mar Vista is majority employee owned. All assets under management are managed by Mar Vista. Mar Vista claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Benchmark returns are not covered by the report of independent verifiers. For the entire period presented, Mr. Myers and Mr. Massey have been substantially responsible for all the investment decisions of the Global Equity strategy.

The Global Equity composite was created in 2012, with an inception date of 12/31/11. All returns are based in U.S. dollars and are computed using a time-weighted total rate of return. The composite is defined to include all fully discretionary, taxable and tax-exempt portfolios with no minimum or maximum account value, managed for at least one month in accordance with Mar Vista's Global Equity strategy, which is a portfolio invested in 20-30 equities, and that paid for execution on a transaction basis. The results in the column marked net of fees for the periods 1/01/12 through the present, include a standard management fee applied to any non-fee-paying portfolio for performance calculation purposes. The primary benchmark is the MSCI World (Net) Index, defined as a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets. The MSCI World Index consists of the following 23 developed market country indexes: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom, and the United States. The secondary benchmark is the MSCI ACWI (Net) Index, defined as a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The MSCI ACWI consists of 46 country indices comprising 23 developed and 23 emerging market country indices. In addition, unlike the composite, which periodically maintains a cash position, the MSCI World Index and MSCI ACWI Index are fully invested. Investors cannot directly invest in an index. The dispersion in gross-of-fee composite returns shown herein was measured using an asset-weighted standard deviation formula.

Performance results presented reflect the reinvestment of dividends and other earnings. Gross performance is net of all transaction costs, and net performance is net of any transaction costs, applicable performance-based fees and actual management fees, but before any custodial fees. All returns are calculated net of withholding taxes on dividends and interest. Actual results may differ from composite results depending upon the size of the portfolio, investment objectives and restrictions, the amount of transaction and related costs, the inception date of the portfolio and other factors. Policies for valuing portfolios, calculating performance, and preparing GIPS® composite reports are available upon request.

The Firm's Global Equity fee schedule is as follows: First \$25 million – 0.75%; Next \$25 million - 0.60%; Next \$50 million – 0.50%; Over \$100 million - Negotiable. Special circumstances may cause fees to vary from this schedule and Mar Vista reserves the right to negotiate fees with clients. Fees are payable quarterly in arrears or advance based on 1/4th of the annual rate.

Portfolio data is as of 3/31/2022 and is provided as supplemental information to the Global GIPS® Composite Report. A Global GIPS® Composite Report is available upon request by contacting Mar Vista directly at (310) 917-2800 or by emailing at [info@marvistainvestments.com](mailto:info@marvistainvestments.com). Benchmark returns are provided for informational purposes only and are not calculated or verified by ACA Compliance Group or Mar Vista. A complete list of portfolio holdings and specific securities transactions for the investment strategy during the preceding 12 months, the top contributors and underperformers calculation methodology and a list of every holding's contribution to the overall performance during the period is available upon request. Top 10 Holdings, Sector Weights and Largest Contributors/Detractors were held in the account of a Global client that Mar Vista believes to be representative of the accounts that Mar Vista manages for this investment strategy during the period from December 31, 2021 - March 31, 2022. Other Mar Vista clients managed with different investment objectives may hold different securities than those listed. The securities listed should not be considered a recommendation to purchase or sell any particular security.
